

Naiad Wetting Agent Concentrate Tube

- Case/20

RG220

Details

Reduce water use by 15 to 30%. Naiad moves water downward and laterally with less moisture lost through evaporation. Flushes salts out of the root zone from reclaimed water. Ideal for greens, tees and localized dry spots. Pre-measured tubes for spray tank usage, 1-2 tubes per acre. Simply snip off the tip and squeeze into spray tank. Contains no salt. 100% biodegradable. Convenient. Economical. Effective.

- Moves water downward with less moisture loss from evaporation
- Flushes salts from reclaimed water
- Pre-measured tubes require 1-2 tubes per acre
- 100% biodegradable
