

## Kenyon Great Rake II 24in

## Details

This landscape-irrigation rake is great not only for raking and leveling, but also for the ground it covers in one stroke. The long, curved teeth provide a smooth, non-gouging raking action giving more efficient grading on the backstroke, while the deep grading edge allows for superior leveling. Strong wrap-around bracing and heavy-duty double rib construction maximizes head stability and ensures long-lasting performance even under the heaviest professional use. All aluminum construction with a 66in red powder-coated aluminum handle.

- Lightweight strength
- Wrap-around bracing
- Efficient grading on backstroke
- Superior leveling
- Vinyl-coated grip
- Powder-coated aluminum handle
- Comfortable in all weather
