

## Bearing Puller - Fits Groomer Roller R262

### Details

R&R Products developed a special line of tools to remove tapered bearing races from rollers, gear boxes and the outer ball bearing races left inside roller ends, in case of a catastrophic bearing failure. The R&R Puller contains a mandrel and spreader which secures behind the tapered bearing race or to the inside ball bearing groove. The tube assembly, which contains its own tapered bearing pulling system, is then placed over the mandrel and spreader to easily remove the outer race. Mandrels and spreaders are manufactured by R&R Products from high carbon chromium vanadium steel and heat treated for maximum strength.

### Specifications

Manufacturer	R&R Products
--------------	--------------

### Fits Models

Jacobsen Greens King IV  
Jacobsen Greens King V & VI  
Jacobsen PGM 19  
Jacobsen PGM 22

### Replacement Parts

R263	Washer - Stainless
R264	Nut - Jam Hardened 7/8-14
